"The person or party that does them vlolence in this their right of petition will go down before a wave of public indignation which has never been paralelled. THAT PER TON PER MILE.

The Eagle has had much to say of late touching the discrimination of railroads against Wichita in ordinary freight classes and per car load lots per ton per mile. Traffic managers, and agents for Missouri river freight pools, answer with the declaration that the Eagle don't know what it is talking about or otherwise that the fault is not theirs, must be charged up against their eastern connections. In a paper prepared for the late Trade and Grain congress by W. J. Wilson, a merchant of this city, we find the following fact:

In a recent shipment of merchandize made by him from New York to Wichita the following division of rates were charged: From New York to Kansas City, 1,300 miles, 25.50; Kansas City to Wichita, 200 miles, 25.50; Kansas City to Wichita, 200 miles, 25.50; Kansas City to Michita of Kansas City, 300 miles, on a given weight \$2.50; Kansas City on to Wichita \$11.00. The Sedgwick block of this city at the corner of First and Market streets, was sold yesterday. The building is the largest business block in the state of Kansas, built of pressed brick and Minnesota red stone. It is 140x120 feet, five stories high, heated by steam, provided with elevator, water service throughout it, and belonged to the Sedgwick Investment company, the principal men of which are Georae L. Rouse and G. H. Blackwelder. Mr. J. T. McCasiand of St. Louis of whose presence in the city the EAGLE spoke yesterday morning, is the purchaser, and the price paid is understood to be \$175.00. The building is largely occupied by offices, the Coronado club having rooms on the fifth floor, also the United States signal service on the same floor, the board of trade hall on the second floor, and the Western Union Telegraph company one of the rooms on the ground floor. It is not only the largest business building in the state, but one of the most imposing and substantial. There is nothing gaudy in its perspective cutlines or features, the red stone trimmings harmonizing in a neutral tint with the red brick. It is the ber-hive of the town and is good for a hundred years of wear and tear.

GOING TO ROB THE LITTLE RIVER.

GOING TO ROB THE LITTLE RIVER.

The officers, employes and operators of the Santa Fe system have accumulated a large hospital fund with which to erect buildings and to care for the sick and hurt. One hospital is located at Topeka. Owing to Wichita's superior water supply, shady streets, good markets, healthfulness and so forth, a number of the employes who have been contributing to the fund were anxious to have the new hospital built in Wichita. As one of them expressed it, the abundance here of pure wa er alone ought to settle the matter in favor of Wichita. But the officers having the matter in charge not being favorable, no effort was made or inducements offered by this city. The officers favored Newton. Word was received in this city yesterday that the city council of Newton in connection with the Santa Fe have taken the first steps for piping the waters of the Little Arkansas from Halstead into Newton. As there are riparian rights involved to say nothing of the fact that Wichita paid fifteen thousand dollars for vested rights in the water of the Little river, it is a question whether they can be sequestered nine miles across the country by a town and company for GOING TO ROB THE LITTLE RIVER, they can be sequestered nine miles across the country by a town and company for the exclusive use of such town and corpo-ration to the detriment of a community that have had the undisputed right of use for twenty years or more.
